DISSEMINATION OF NATIONAL AND NON-NATIONAL
INTELLIGENCE TO FOREIGN GOVERNMENTS

a. There is an IAC procedure for concurrence on foreign dissemination of national intelligence to foreign governments in consonance with NSCID 1 (IAC-D-45/2).

b. The IAC arrangements (IAC-M-80) to take care of [redacted] have not resulted in any material benefit to the Colonel and this liaison has practically ceased.

25X1

c. DD/I has issued guidance to CIA production offices on foreign dissemination of non-national intelligence (13 August 1952).

1. Revision of CIA regulations to incorporate arrangements above, including an examination of the total question of dissemination. At present this office is in consultation with OCD on this problem.

25X1

3. Eligibility of foreign nationals to receive classified information. This question was raised in this Agency upon receipt of an Interdepartmental Committee on Internal Security proposal for establishment of a procedure on this subject. Acting DD/I approved comments to DD/A for use by I&S in the ICIS (TAB A).

4. Dissemination of national intelligence to "alien employees" of State. On inquiry from State on this subject OIC, after consultation with interested offices transmitted CIA position (TAB B).

5. False confirmation of U. S. intelligence. The Army proposed to SDMIC that a quadra-lateral arrangement among the U. S. and commonwealth countries be established to prevent false confirmation of intelligence. Position of the DD/I offices for I&S on the Army proposal (see TAB C).

6. Proposed CIA regulation on counterespionage protection and support. A CIA regulation on this subject was proposed by the DD/P area. The view of the DD/I offices was obtained and discussed informally with Division C. Division C will prepare a new draft for DD/I area comment.
7. Revision of the IAC approval of NIS dissemination (IAC-D-45/2). State has informally recommended revision of this document and we are awaiting their written proposal.
